HW15

- Modify the code of HW13, and implement the functions according to Ch14, then done the below exercises.

  1. Complete the example in Chapter 14 so that you can run the program to draw elements as shown in Figure 14-20.

  2. You don't need to include the "Mouse Capturing" feature.

  3. Add the menu item and Toolbar button for an element of type ellipse, and **define a class** to support **drawing ellipses** defined by **two points** on opposite corners of their enclosing rectangle.
     (Hint: …CRect(Start – (End-Start), End);)

Example, you can draw something you like.
